Characteristics:	Fantastic hot and cold scent throw. A softer wax, ideal for premium and high end candles. Great container adhesion. Amazing clean burn aided by coconut oil. Smooth tops pre-burn, post-burn smoothness is fragrance dependant.	The only wax of its kind in the market. A harder wax with intended shrinkage properties designed for melts and moulds. Powerful hot scent throw plus a high tolerance to more potent oils. Perfect wax for hot or candle-adverse conditions.	A uniquely balanced, natural product with strong hot and cold scent throw. A one-pour wax that gives great smooth tops pre and post-burn. An overall top performer, clean burn with fantastic adhesion.	Unrivaled hot scent throw with fantastic container adhesion. With S100 it can sometimes prove difficult to achieve smooth tops consistently. Post burn appearance is fragrance dependant.
